The coupling frame is designed for attaching ConCept basic modules. The ConCept modules snap securely and permanently into the coupling frames.

The ConCept male and female modules ranging from 3 to 20 poles, as well as the ConCept-Bus modules of identical pole count and design can be installed into the coupling frames. Each module can be individually plugged in or extracted. The optional extraction/strain-relief aid and the snap-on installation bracket make ModuFlex-C coupling frames and the male/female modules from the ConCept system very flexible. A wide variety of all-purpose plug-in combinations for all IP20 connections are possible.

### General ordering data

Type	MODUFLEX C-CR
Order No.	<a href="#">1746060000</a>
Version	Heavy Duty Connectors, MODUFLEX C, Modulflex C frame
GTIN (EAN)	4008190986476
Qty.	10 pc(s).
