

OIL PRESS / OIL TEMP. GAUGE

Use a commercial sensor attachment

OPOT-M18-P1.5
OPOT-M20-P1.5
OPOT-3/4unf-16

CONFIRMATION

- The thread size of the temperature sensor is 1/8 NPT. If the thread size of the sensor attachment for the temperature sensor is 1/8 PT, you will need the 1/8 PT sensor (optional part). If it is neither 1/8 PT nor 1/8 NPT, you will need to purchase a conversion adapter available from hardware stores.
- Tighten the sensor into the sensor attachment and then connect it to the sensor wire.
